## ABOUT ME

I'm a passionate and adaptable Full Stack Developer with over 3 years of hands-on experience building modern web applications. I began my career working independently on freelance projects and co-founding a startup, which helped me develop strong problem-solving and product-thinking skills. Most recently, I worked at Everlution Software, where I evolved from a Frontend Developer into a Full Stack Developer, contributing across the entire application stack.

## EXPERIENCE

### FULL STACK DEVELOPER / EVERLUTION SOFTWARE

SEPTEMBER 2023 – MARCH 2025 / 1.7 YEARS

React · GraphQL · Node.js · TypeScript · Prisma ORM

- Started as a **Frontend Developer** and gradually transitioned into **full-stack development**, contributing across the entire application stack.
- Built and maintained modern, **responsive** web applications using **React** and **TypeScript**, with a focus on performance, accessibility, and **user experience**.
- Developed backend functionality using **Node.js**, **GraphQL**, and **Prisma ORM**, ensuring efficient data handling and seamless API integration.
- Participated in **code reviews** and enforced best practices, contributing to a clean, scalable, and maintainable codebase.
- Worked closely with **designers**, **product owners**, and **backend engineers** to align development efforts with business goals and user needs.
- Proactively explored new tools and development strategies to enhance **team workflows** and overall project quality.

### SOFTWARE ENGINEER / SELF-EMPLOYED

JANUARY 2022 – SEPTEMBER 2023 / 1.9 YEARS

JavaScript · Angular · Nest.js · SQL · HTML5 · CSS3 · AWS · Next.js · Docker · Git

- Worked independently on **freelance projects**, building **responsive web applications** using core **frontend** technologies.
- **Co-founded** and developed **Ventscape**, gaining hands-on experience with product development and early-stage **startup** challenges.
- Built and maintained several pet **projects** hosted on [GitHub](https://www.github.com), focusing on clean code, **UI/UX**, and **functional design**.
- Studied **computer science** and participated in **hackathons**, sharpening **problem-solving** and **collaboration** skills.

## EDUCATION & LANGUAGES

**Bachelor's Degree in Computer Science** / Technical University of Kosice, Slovakia

September 2022 - June 2025

**Skills gained:** C, Java, Python, OOP, Algorithms and Data Structures, Operating Systems, Computer Networks, Databases, Computer System Security, Game Development, UX/UI.

**Languages:** English (B2) | Slovak (C1) | German (A1) | Ukrainian (Native)
